

The **safe** and **legal**
way to use topical
adrenaline in your
treatments

- Superior pigment retention
- Assists with client comfort (pain relief)
- Constricts vascular activity with treatment (bleeding)
- Less treatment time needed
- Safe and legal
- Fully insured
- Includes bespoke first aid
- Fully accredited course
- Fully qualified tutor/ nurse

We provide a **safe** and **legal** alternative product to TAG and MAGIC which includes training for the use of topical controlled adrenaline A.C.T.fast for all spmu and microblading technicians

WARNING!

(TAG/MAGIC etc) have been **banned substances** in the U.K. since 2010. Unfortunately it is easily obtained online putting the public at risk. If caught using any of the mentioned substances it may result in a **custodial sentence**.
